

Good Intentions Wine Co.

Frankie

Tasting Notes:

Light-red in color and light bodied. Juicy, green pepper, blueberries and mushroominess.

Production Notes:

100% Cabernet Franc

The Cabernet Franc is de-stemmed and then left on skins for 3 days. 2020 was an unusual year, bringing many adaptations; and resulted in our first light red version of Frankie; but we love her in every way. Wild fermented, unfined, unfiltered.

About Good Intentions Wine Company:

Andrew and Louise, a husband and wife team, planted their organically managed vineyard with Andrew heading up the local viticultural association in order to try to get the region on Australia's organic winemaking map! In the meantime, they manage and source fruit from three local sites. They do not filter or fine their wines and they are all bottled on. Their aim is to produce great tasting unique wines expressing this unique terroir above anything else.

Cellaring:

Drink now (great slightly chilled!)

Mount Gambier Facts:

- Mt. Gambier is one of Australia's youngest volcanos - erupting less than 6000 years ago.
- Located within the Limestone Coast zone, (South-East of South Australia,) the Mount Gambier region has been established as a viticultural region since 1982.
- Extremely unique terroir consisting of lava caves, aquifers, sinkholes and lake-filled crater and ash has weathered into a well-drained, highly fertile loam.
