

Highr

“Giin & Tonic”

Scientific mixology for the mouth as well as the mind

Tasting Notes:

Distilled Juniper, Yuzu Tonic, and some seriously relaxing ingredients are designed to help lift your spirits, without the downsides. A collaboration with the legendary Japanese chef, Chase Kojima, this is a non-alcoholic G&T like no other.

Production Notes:

Carbonated mineral water, natural extracts and distillates, lemon, yuzu, citric acid, acacia fibre, vitamin C, Organic erythritol, vegetable glycerine, monkfruit, l-theanine, chamomile extract, Californian poppy extract, and valerian root extract. Added sugar <1g/L.

About Highr:

Since 2017, No & Low Drinks Co has been pioneering the non-alcoholic scene in Australia with a commitment to native ingredients and partnerships with Indigenous-owned suppliers. With a focus on ethically sourced components, the aim is to create progressive drinks that expand the horizons of what ‘alcohol-free’ can offer.

Serving Suggestion:

Glass, ice, away you go. Or chill and drink straight from the bottle. Each bottle contains two cocktails.

Disclaimer: Check with your doctor before consuming HIGHR if you're unsure of any of the ingredients. Not recommended for pregnant women or children.
